Jon,

Today I am sending you a hard copy of the 3rd St Waterline Plans. Please review with your crew, pay special attention to fittings. If you want something different than what is shown Bruce & I want to know so it can get corrected and so we know preference while designing future phases. If there is something additional or different that you'd like to see on the plans make comments on that as well, we want to give you something that best suits your needs.

I will ask Jill to set up a 30 minute meeting to review comments in the next week or so. After our meeting plans will be finalized, signed & sealed for DEQ for approval.
